Invitation

Dear Friends,

PHASE welcomes you to PHASECON 2025, the ultimate student conference! Here, you will discover new opportunities, connect with peers and professionals, and engage in inspiring discussions that will propel you to success.

Why Phasecon is a "must attend event"

PHASECON 2025 is a vibrant platform that inspires and equips future public health leaders. It offers students the chance to connect with seasoned professionals, explore advancements in public health, and gain insights from expert speakers. Attendees can network with peers and industry leaders, building valuable connections for their careers. The conference also provides a stage to showcase research and projects, enhancing communication and presentation skills. Beyond professional growth, PHASECON broadens understanding of pressing public health challenges and innovative solutions.

Who all should attend?

This event targets public health students, professionals, researchers, academics, healthcare providers, policymakers, and advocates. It is also relevant for digital health innovators and IT specialists at the intersection of technology and healthcare. Additionally, it welcomes individuals committed to advancing community health outcomes through collaboration and innovation.

WE LOOK FORWARD TO WELCOMING YOU TO "PHASECON 2025" AND PROVIDING A PLATFORM FOR LEARNING, COLLABORATION, AND NETWORKING.

About Venue

PGIMER

The Postgraduate Institute of Medical Education and Research (PGIMER), Chandigarh, was established in 1962. It was declared an 'Institute of National Importance' by an Act of Parliament on April 1, 1967. This educational institute aims to produce specialists in various fields of medicine through comprehensive medical training and research. It is dedicated to providing the best healthcare services to patients through a community of trained health professionals and the latest medical technologies.

DCM and SPH

The Department of Community Medicine and School of Public Health (DCM & SPH) integrates a variety of disciplines and focuses on producing leaders to serve the community. The department strives to improve health by preparing a task force of educators, students, scientists, and healthcare workers engaged at grassroots levels.
