ABSTRACT SUBMISSION GUIDELINES

- The presenting author must register for the conference
- The abstract must be based on original work (primary and secondary). Abstracts previously published/presented at any State/National/International meetings are not permitted.

GUIDELINES FOR FORMAT OF THE ABSTRACT

- The abstract should include the following- Title, authors and their affiliations, introduction, objectives and rationale, methods, results, discussion, and conclusion with keywords.
- It should be submitted as a Microsoft docs file (.docx)
- Permissible fonts include Times New Roman/Arial/Calibri.
- The font size for the heading should be 14 and for the content should be 12 with a spacing of 1.5 for the entire document.
- The abstract should not be more than 300 words excluding the Title, authors and affiliations, and keywords.
- The author's name and affiliations should italicized with font size 10.
- The abstract should have no images/flowcharts/graphs/diagrams/tables.

HOW TO SUBMIT

- All the abstracts must be submitted via online submission portal in Microsoft word (.docx) format using google form.
- The file should be named as your First Name_LastName_Oral/Poster (eg.- Neha_Singh_Oral)

REVIEW OF ABSTRACT

Scientific committee will review all submitted abstracts, and the committee's decision on the abstract will be final.

ACCEPTANCE OF ABSTRACT

- The delegate's preference for the manner of presentation will be asked at the time of submission, however, it may alter depending upon the overall number of abstract submissions.
- The scientific committee reserves the right to accept or reject abstracts without explanation and decide the mode of presentation (oral/poster)
- The final decision on the abstract will be conveyed via email, along with complete guidelines for presentation (oral/poster) for the abstract selected.

JUDGING CRITERIA

- Work should not be plagiarized or excerpted, and any discrepancies will be rejected.
- An abstract must be completely self-contained and understandable without additional reference to the outside or the actual document.
- Novelty of research
- Public health implication of work
- Robustness of the study
